ACTIVIDAD. *Act. 4.1 Proyecto Final Analizadores*

ING. EN DESARROLLO Y TECNOLOGÍAS DE SOFTWARE

ALUMNO: *Gabriel Omar Fuentes Chacon.*

DOCENTE: Mtro. Luis Gutiérrez Alfaro

Fecha de entrega: *14/11/2023*

ANALIZADOR LEXICO Y SINTECTICO

The image shows a Python IDE with a Lexical Analyzer implementation. The code defines a `Lexer` class with methods for tokenizing and analyzing code. The interface includes buttons for "Analizar", "Limpiar", "Ir A Sictactico", and "Salir". A table displays the results of the analysis, showing tokens like "if", "(", "variable", "=", "10", "}", "int", and "variable" with their respective counts. The bottom status bar shows "Python 3.10.2 64-bit".

ANALIZADOR LÉXICO Y SINTÁCTICO
